This application is in condition for allowance except for the following formal matters:

The drawings are objected to because Figure 1 fails to show reference numeral 99 as disclosed on page 6, line 13.

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "25" has been used to designate both at least one optical fiber (figure 1) and an electro-optical cable (figure 2).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The disclosure is objected to because of the following informalities: On page 6, line 19, "are provided" should be "is provided". Page 6 of the specification uses reference numeral 24 to refer to both an inner tip housing and a means for illuminating. Appropriate correction is required.

Claims 7-32,44-46 are objected to because of the following informalities: In claim 7, line 21, "spectrum value" should be "spectrum vector". It is unclear as to how claim 10 further limits the base claim in that claim 7 includes converting the analog signal to a digital value. In claim 17, "the decision" lacks antecedent basis. In claims 20-22, "of" should be inserted before "values" on line 2. In claim 23, lines 3,5 "reflectance" is misspelled. In claim 45, line 20, "spectrum value" should be "spectrum vector". Appropriate correction is required.

Claims 23,24 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 45,46. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
